

The guidebook for the Adirondack Fifty Falls Challenge is now available!

Waterfall experts John Haywood and Russell Dunn bring you previously unpublished locations and content in this 134-page guide that includes GPS, directions, a photo to help identify each waterfall, and a small map for each to be used as a general area reference. There is also a checklist in the back of the guide to help you keep track of your visits.

The well-respected duo, known for waterfall guides and photography, have put together this exciting challenge in an effort to draw Adirondack visitors to other areas outside of the High Peaks Region to help alleviate the congestion experienced there.

Whether you're taking on the challenge or just looking to visit some Adirondack waterfalls, this guide has everything you'll need for a fun day outside!

Click the link image below to order.

Proceeds from the sale of the Adirondack Fifty Falls Challenge guide to be used for the production of patches, and will also be used toward our Paul Smiths College Scholarship.

Follow our Facebook page for updates and sharing!
